Profile

Frontend Software Developer with experience creating dynamic and user-friendly web applications using technologies like React.js, Next.js, and Node.js. Successfully contributed to developing Vodafone's German website and led the migration to the Redux toolkit, enhancing performance and user experience. Passionate about leveraging skills in web development to drive innovation and growth in a Frontend Software Engineer role.

Professional Experience

07/2025 – Present
Cairo, Egypt

Frontend Senior Engineer at _VOIS

- Lead the front-end technical planning and feature breakdown for the [vodafone.de](#) website, mentoring junior engineers and establishing coding standards.
- Spearheaded the architecture of a scalable component library, enhancing the UI design system and reducing feature development time by approximately 15%.
- Drive performance optimization initiatives, improving Core Web Vitals scores to enhance SEO and user engagement on the new e-shop project.

07/2023 – present
Cairo, Egypt

Frontend Software Engineer at _VOIS

Working on the daily development features, of the [vodafone.de](#) German website for Vodafone

- Developed and maintained core features for the high-traffic [vodafone.de](#) website, ensuring high performance and a seamless user experience.
- Engineered reusable UI components for the company's design system, promoting consistency and accelerating development across multiple teams.
- Executed the migration from Redux Saga to Redux Toolkit and RTK Query, streamlining state management and reducing asynchronous logic boilerplate.

05/2024 – present
Remote work

External Instructor at ITI

Instructing web and user interface development lectures to students at ITI

- Instructing frontend development courses (RWD, JS, React.js, etc.), leading to improved student understanding and application of modern web technologies
- Supervising new ITI students to identify optimal career growth paths and effective methods for success in the competitive market, resulting in increased student confidence and career readiness

10/2022 – 06/2023
Smart Village, Egypt

ITI Frontend development Intern

ITI 9-month professional training program, Web & User Interface Development Track [hybrid].

- Completed extensive training programs on web design and development, enhancing skills in creating responsive and interactive web interfaces
- Built multiple projects and successfully passed all tests during the scholarship, demonstrating proficiency in frontend development technologies, which resulted in a comprehensive understanding of Frontend Development and UX design

Information Technology Institute (ITI) Smart village
Web & User interface development track

09/2018 – 06/2022
Tanta, Egypt

Bachelor's Degree in Business Administration

Department of Business Information Systems (BIS)
Graduation Project: "Excellent"
Cumulative GPA: 3.75/4.0 **"Excellent with honors"**

Technical Skills

HTML

Pug.js, Ejs, Handlebars

Headless Components

Headless UI, Reach UI

APIs

Apollo, GraphQL (most used), REST APIs, Postman

SEO

Social Metadata, Structured Data, Mobile Optimizations, AMP

UX Design

UX Research, UX Process, Figma

CSS

SCSS, PostCSS

React.js

React Router, React Redux, React Hooks

ORMs

Drizzle, Prisma

Web Security

Session Hijacking & Injection, Cross-Site Request Forgery, CORS & Cross-Site Scripting, Content Security Policy

Testing

Unit testing: Jest,
Integration test: Cypress

JavaScript

ES6, TypeScript

State Management

Context API, Redux architecture, Redux toolkit, Redux Saga

Backend

Node.js, Express.js

Memory Management

App storage management, caching mechanisms

UI Libraries

Bootstrap.css, Material UI, Chakra UI, **Mainly using:** Tailwind CSS, Shadcn/ui, Aceternity UI for components, **CSSinJS:** mostly Styled components but try to avoid and use CSS modules instead

Next.js

App router, (RSC, RCC), (SSG, SSR)

Performance

Core Web Vitals, Performance Metrics Optimization, Performance Testing

Web Accessibility

Screen Readers, Accessible HTML, ARIA, Focus Management

Projects

Vodafone.de Website [↗](#)

Description: Working on the maintenance, development, and migration of the Vodafone German market company website code base.
